

FERROCLEANSE FRC-6024

Multi-Use Iron Cleansing Treatment

FRC-6024 is a proprietary product formulated as a non-regulated cleaning agent to remove Iron Oxide (rust) corrosion by-products. It is safer and easier to use than aggressive and harsh acid based de-scaling compounds and will not attack the metal surfaces.

FerroCleanse Benefits:

- Works by penetrating, dispersing and complexing iron oxide by products that have accumulated
- Safer and easier to use than harsh de-scaling compounds
- Provides corrosion protection to ferrous and non-ferrous metals during the cleaning process
- Will also have an effect on calcium carbonate, sulfates, phosphates and organic deposits
- Ships as a non-regulated product
