## GREENCOOL-ONE

GreenCool-One is a proprietary product formulated as a non-regulated, biodegradable cooling water treatment meeting the EEOCD specifications – 60% minimum/28 day degradation profile. GreenCool-One is specifically formulated and designed to meet the USEPA's 12 principals of Green Chemistry.

### GreenCool-One Benefits:

- A unique blend for corrosion control and dispersants for crystal modification for control of Calcium Carbonate and other scale forming ions.
- Resistant to degradation from Bromine/Chlorine compounds.
- Ships as a non-regulated product.
- A safer product to handle and utilize.
