

## POLYMER TESTING PRODUCTS

**One Test Kit, One Method, One Reagent System – What could be easier?** Dispense two reagents, a reaction time of three minutes, zero out your meter, insert your sample and read the meter; the Polymer content is determined!

### Polymers Test Kits

CAT. NO.	PRODUCT DESCRIPTION	UNIT SIZE(S)
MP-9737	MCI Multi-Parameter Photometer-Polymer Test Kit The MP-9737 comes complete with Batteries, Timer, Test Vials, Instruction Booklet, and Start up Polymer Reagent Pack. Packaged in a Foam Lined Case. (50 Tests/Package)	Each

### Polymer Reagent Packs

R-9437	Enhanced Polymer Reagent Pack (50 Tests/Package) (To be used in conjunction with MP-9737M)	Each
A-432	Polymer Analysis Reagent Pack. For use with Hach DR-2010 or similar meters which have a 25 ml sample size and 490 nm setting. Complete with Test Instructions (50 Tests/Package)	Each
A-433	Polymer Analysis Reagent Pack. For use with Hach-DR-890/LMC/Palin or similar meters which have a 10 ml sample size and 520 nm setting. Complete with Test Instructions (50 Tests/Package)	Each

### Polymer Replacement Reagents

R-9438	Enhanced Polymer Reagent B&B Solution	A, E
R-9439	Enhanced Polymer Reactant Solution	A, E
R-9440	Sequestering Reagent	X

### Polymer Test Standard

018/10-P	Polymer Test Standard Solution (10 ppm active Polymer) (20 Pouches/Box)	Each
----------	---	------

### Reagent Options for MP-9737M MCI Multi-Parameter Photometer Test Kit

MP-9710	Parecetic Acid Reagent Pack (50 Tests/Package)	Each
MP-9719	Bellacide®301, 303, 350, and 355 Reagent Pack (50 Tests/Package)	Each
DR-9719	Bellacide®301, 303, 350, and 355 Reagent Pack for use with DR890 Meter (50 Tests/Package)	Each
MP-9770	Low Range DBNPA Reagent Pack (50 Tests/Package)	Each
MP-9723	Low Range QAC Reagent Pack (50 Tests/Package) (Quaternary Ammonia Compound)	Each

## Reagent Options for MP-9737M MCI Multi-Parameter Photometer Test Kit

CAT. NO.	PRODUCT DESCRIPTION	UNIT SIZE(S)
MP-9771	Total Copper Reagent Pack (50 Tests/Package)	Each
MP-9772	Iron Reagent Pack (50 Tests/Package)	Each
MP-9773	Free Chlorine Reagent Pack (50 Tests/Package)	Each
MP-9774	Total Chlorine Reagent Pack (50 Tests/Package)	Each
MP-9776	Phosphate Reagent Pack, Low & High Range (50 Tests/Package)	Each
MP-9778	Sulfate Reagent Pack (50 Tests/Package)	Each
MP-9783	Free Chlorine, High Range Reagent Pack (50 Tests/Package)	Each
MP-9784	Total Iodine Reagent Pack (50 Tests/Package)	Each

## MP-9737M MCI Multi-Parameter Photometer Replacement and Equipment Items

611	Pre-Treatment Filtration Test Kit. Consists of: 30 ml Plastic Syringe, Filter Holder Assembly, Package of Whatman No. 5 or Equivalent Grade Filter Paper 2.5 cm, and Sample Pre-Treatment Filtration Instructions (100 Sheets/Box)	Each
765/10	Syringe Plastic, 10 ml (1/Pack)	Each
759HD	Eyedropper, Glass, Scribed at 0.5 & 1.0 ml	Each
9737T	Timer, Battery Operated (original equipment for MP-9737M)	Each
MP-9702	10 ml Glass Sample Cell with Cap Assembly (2/Pack)	PKG
MP-9799	Batteries, Replacement AAA (4 Pack)	PKG
