POLYQUAT TESTING PRODUCTS

PolyQuat Test Kit (Cationic Polymeric Biocide/Biodispersants)

| CAT. NO. | PRODUCT DESCRIPTION | UNIT SIZE(S) |
|----------|--|--------------|
| 605 | PolyQuat Test Kit (as WSCP/EBC PolyQuat Compounds) (1 drop = 0.5 ppm/25 ml as PolyQuat) Each PolyQuat Test Kit will measure residual values of WSCP based microbicide or residual values of EBC-1 dispersant. The PolyQuat Test is useful in comparing product application efficiency, residual ppm value vs. microbiological control of colony forming units present in sample. | Each |

PolyQuat Replacement Test Reagents

| | | |
|------|--|-----------|
| 168 | Phenolphthalein Indicator Solution | X,A,C,E,F |
| R621 | PolyQuat Titrating Solution (1 drop = 0.5 ppm/25 ml as PolyQuat) | A,C,E |
| R623 | O-Toluidine Blue Indicator Solution | X,C |
| R624 | EDTA Sequestering Solution | X,C |
